

RAI-MDS

- RAI-MDS 2.0 is an assessment
- Minimal assessment points with clinical outputs
- CAPS one of the outputs
 - Used in client centered care planning

Teresa Dussome, BScN, RN

Manager Quality Improvement and Best Practice
Continuing Care, EZ, Facility Living

P.I.E.C.E.S. and RAI-MDS

- P.I.E.C.E.S. assessment framework utilizes the RAI-MDS outcome scales information
- Grounded in the principles of seeking effective intervention and evaluation for care planning

P.I.E.C.E.S. Canada – ‘User Guidelines for the Job Aid Putting It All Together: RAI-MDS and P.I.E.C.E.S. Integration’ 15 May 2010 www.piecescanada.com

AHS North Zone: Which Way From Here?

How do we capitalize on our strengths and address the barriers in the Zone's ability to use RAI data?

Terri Woytkiw, RN, MN CHPCN(c) GNC(c)

Lead, Clinical Support, Seniors Health North Zone
