Agenda
A network of post-secondary institutions, continuing care providers, and regulatory bodies collaborating to improve continuing care in Alberta
Community Needs Driven Research Network (CNDRN)

• First funded by Alberta Innovates Health Solutions
• Now supported through an operational grant from Alberta Health
• The purpose is to identify needs – from the perspective of the community and care providers - related to continuing care where education and/or research could help improve care

AND

• To encourage research and knowledge translation to address the identified issues.
Community Needs Driven Research Network (CNDRN) for Continuing Care in Alberta

Supported by:

Transfer knowledge back to caregivers in the community, including:

*support is provided in various ways including financial support, research team support (Project Management, Advisory Committee, data collection and analysis, etc.), and knowledge translation.
Speed Networking

• Part of our ongoing consultation and network development.

• Opportunity for researchers and community providers to meet, share needs/interests, develop potential relationships.
ICCER Priorities

- Knowledge translation & mobilization
- Innovation sharing
- Resident and family engagement
Our Speakers

• **Megan Strickfaden** is a Professor of Design Studies and Material Culture in the Department of Human Ecology, University of Alberta.

• **Jacquie Eales** is a Research Manager with Research on Aging, Policies and Practice (RAPP) in the Department of Human Ecology, University of Alberta.
Small Group Discussions

Round 1 – Person Centred Care

• How did you feel as you watched the film ‘The Cigarette’?

• What are the details about the designed physical environment that stood out in the older gentleman’s quest to smoke a cigarette?

• What is one design change that would enhance this man’s quality of life?
Round 2 – The Power of Policies

• How do you interpret policies?
• Tell us about a situation in which policy drove the way a space was created, and the impact it had on residents?
Round 3 – Re-Imagining Living Spaces

• Imagine your future self. When you need care, what will enhance your quality of life?

• Given the building stock currently available, what is one thing we can do differently?
